VERY LATEST NEWS.

WASHINGTON.

Letter from Chief Justice Chase.

WASHINGTON, Oct. 21.

The following important letter relative to the trial of Jeff. Davis settles the existing dispute as to whether the Chief Justice will preside:

WASHINGTON, Oct 22.

DEAR JUDGE UNDERWOOD: On reflection I think it best that you advise the District Attorney, Mr. Chandler, that I will join you in holding Court in Richmond on the 13th of November, if any important business is to be transacted. Mr. Chandler, I think, should notify the counsel for Jefferson Davis of this, in order that he may appear and take his trial, if he sees fit, as his bail was taken for his appearance on the fourth Wednesday of November. He is not, it is true, bound to appear earlier, but as it is not possible for me to be present except during the first week of the term, commencing on the fourth Wednesday, because of the term of the Supreme Court commencing on the following Monday. It may be that Mr Davis and his counsel will prefer the trial to take place at an earlier period. It is understood that they wish that the Chief Justice may be present.

Yours very truly,
S. P. CHASE.

To HON J. C UNDERWOOD, Dist Judge.

A gentleman just returned from London, Va., says this letter was yesterday handed to Judge Underwood by J. Randolph Tucker, one of the counsel for Davis. The latter took a copy of it but can give no reply until after a consultation with his associates.

Gen. Grant and Gov. Brownlow.

The correspondence between General Grant, General Thomas, Governor Brownlow and the Mayor of Nashville, regarding the State municipal election in that city, will be given to-morrow. It will show that General Thomas acted under instructions from General Grant. General Grant felt it his duty to co-operate with the State Executive in securing not only the public peace, but the enforcement of the laws of the State when it enfranchised its colored citizens.

Revenue Frauds.

The Revenue Bureau has received information that in the Sixth N. C. Collection District tobacco has been assessed and taxed at rates ranging from two to ten cents per pound Inspector Best, who makes the report, adds that he has discovered other frauds, of which he promised to give full particulars in a few days. Best was removed before he could make the promised report and another officer was detailed to make an investigation of the alleged frauds.

Secretary McCulloch.

Secretary McCulloch to day denies that he has any intention of writing a letter supporting the policy of President Johnson. He declares his political and financial views are well understood throughout the country therefore no necessity exists for such a letter at the present time.

President Johnson.

The President has been charged with intending to disregard the Civil Tenure law by not sending his reasons to the Senate for removing Secretary Stanton, but Mr. Johnson holds that the law in question is unconstitutional and there is no way of testing it unless he takes the initative, there being but two parties to the case, the President and Stanton, one or the other of whom would have to do the act which would carry it to the courts.

The Retrenchment Committee.

The Retrenchment Committee having refused to accept the report of S. M. Clark, Chief of the Printing Bureau of the Treasury Department, in lieu of a regular examination of that Bureau, Clark has showed a disposition to interfere with the operations of the Committee. He is neither willing to submit his books and records for investigation nor give satisfactory answers to questions put to him, and it is probable that in order to facilitate the investigation, Clark will be suspended by the Secretary of the Treasury, as it is learned that the Committee have recommended it. The Committee began this morning an examination of the clerks who serve under Clark.

Lincoln Assassination Committee.

There will be no meeting of the committee to inquire into the assassination of President Lincoln until Butler's arrival, a fortnight hence.

Proposals Invited for Carrying Mails.

The Postmaster General invites proposals for carrying the mails to Great Britain under the new treaty. He expects to secure a trip every other day.

National Banks

The condition of the Western National banks, as shown by abstracts compiled from their quarterly reports received at the office of the Comptroller of Currency, is up to the required standard, and this is also the case in regard to the national banks in all other sections of the country. The reserve specified by the action of Congress have been met in all cases, while in some the average is a considerable percentage over the requirements of law.

BOSTON.

Sale of the Daniel Webster Place.

BOSTON, Oct 24.

Daniel Webster's place, at Franklin, New Hampshire, was sold at auction on Tuesday. The heirs of the late Rufus L. Fay bought the building and home farm of two hundred acres for $5,000.

The Everett Monument.

The Everett statue in Boston will not be dedicated till next spring, owing to the pressing engagements of Governor Andrews, who is to be the orator.

Donation to Harvard College.

George Peabody has made a donation to Harvard College of $150,000 for the establishment of a Museum and Institute of Archeology and Ethnology.

Sudden Illness.

Hon. Joseph A. Pond, President of the Massachusetts Senate, was seized with sudden illness to day, and is in a critical condition.

NEW YORK.

An Appeal.

NEW YORK, Oct. 24.

The Firemen's Charitable Association of Houston, Texas, have made an appeal to the charitable for assistance. They ask for only $5,000 to get them out of debt.

Schuyler Colfax's Address at Cooper Institute.

Hon. Schuyler Colfax delivered an address at the Cooper Institute before a very large audience on the political situation. He advocated the impeachment of the President, and the nomination of Grant by the Radical party next year as their standard-bearer in the Presidential campaign, and stated it as his conviction that the government of the country was safe only in the hands of the Radical party.

PITTSBURGH.

Fire.

PITTSBURGH, Oct. 24.

Joseph Logan's steam barrel factory, Allegheny, was entirely destroyed by fire last night. Loss about $15,000—no insurance.

Suicide.

A young man, named James G. Thomas, committed suicide yesterday morning in Allegheny, by taking poison.

TORONTO.

Pretended Robbery.

TORONTO, Oct. 23.

Advices from Montreal show that the Farlardean robbery case of $35,000 was only a pretended one, the money being found hidden under Farlardean's sofa. He, with two brothers, were arrested.

RICHMOND.

Serious Shooting Affair at Lynchburg.

RICHMOND, Oct. 24.

A dispatch from Lynchburg says: The election in this city progressed quietly to-day until 3 o'clock in the afternoon, when an affray occurred that caused a great deal of excitement. Ned Horton, colored, who voted the Conservative ticket, was assaulted by the Radical negroes, who were enraged by the vote he gave. Horton fled but was overtaken at the market house by his pursuers, who threatened his life and commenced a violent attack upon him. Horton drew a revolver and shot five times, wounding three of them mortally. The military arriving at this time dispersed the crowd and took Horton under arrest and protection. The negroes voted en masse on the extreme Radical side.

The Election in Virginia.

At the close of the polls to-night in Richmond the vote stood 4,697 white and 4,252 colored—white majority, 445. In one ward the polls at which votes were received were closed at six o'clock and the polls for colored voters kept open until half-past seven. During this time one hundred negro votes were polled. The polls in three of the largest wards of the city will be reopened in the morning by order of General Schofield. The white vote is nearly exhausted, but a negro will be found for every name on the registration list. They have been brought in from the country to-day and will be to-morrow. The result will be the success of the Hunnicutt Radical ticket. Returns from the counties indicate the election of a majority of Radicals to the Convention.

HARRISBURG

Dastardly Outrage.

HARRISBURG, Oct. 24.

Our citizens are much excited at a dastardly outrage committed last evening in the upper part of the city. A girl, 18 years of age, while returning home at an early hour, was struck by some unknown person and knocked insensible, and when found, was terribly lacerated and outraged. She is still insensible, and the villain undetected.

Dr. Schenck's Mandrake Pills—A Substitute for Calomel.—These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, these Pills may be used with advantage in all cases when a purgative or alternative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last state of Consumption, and the other in his present health.

FINANCIAL AND COMMERCIAL

PETROLEUM MARKETS.

OFFICE OF THE MORNING HERALD, TITUSVILLE, Oct. 24, 1867—10 P. M.

The Petroleum market opened firm this morning at the advance of yesterday. Toward noon several sales were effected at an advance of from 15 to 25 cents over yesterday's quotations. The demand for the Cleveland, Philadelphia and New York markets was good. There was more activity observable than there has been on any previous day during the past two weeks. On 'Change at Petroleum Centre there was a large attendance of buyers and sellers and the aggregate of transactions was quite large, having amounted to nearly 6,000 barrels. Although the bidding was quite spirited there was but little disposition manifested to offer higher prices. The sales in the Exchange room, at the wells, were as follows: 1,000 barrels on Bennehoff Run, for the Oil City market, at $3 00; 1,000 barrels on the McElhenny Farm, for the New York market, at $2 90; 1,000 barrels on Bennehoff Run at $3 00; 500 barrels on the Skinner Farm, for the Oil City market, at $3 00; 500 barrels on the Woods Farm, for the New York market, at $2 95; 1,000 barrels on Bennehoff Run, for the New York market, at $3 00; 600 barrels on the McElhenny Farm, for the New York market, at $3 00. The following additional sales occurred delivered, outside of the Exchange: 1,000 barrels at Shaffer, by Abbott & Harly, for the Philadelphia market at $3 25; 500 barrels on Pioneer Run, for the Cleveland market, by the Foster Farm Oil Co., at $3 15; two car loads on Cow Run, by the Montreal Petroleum Co., for the Boston market, at $2 90 at Gregg's Switch; two car loads at Petroleum Centre, for the Cleveland market, at $3 15; 200 barrels on Pioneer Run, for the Jamestown market, 42 gr., at $3 40. On the Stevenson Farm the Ocean Oil Co. sold 2,000 barrels at $3 00 at the wells. Owing to unfavorable advices from New York and Europe the market closed somewhat heavier.

We quote:

Crude at Pioneer delivered on the cars	$3 00@3 15
Crude at Miller, delivered on the cars	3 25@3 35
Crude at Petroleum Center	3 15@3 25

Opposite Bowling Green,

ON THE EUROPEAN PLAN.

The STEVENS HOUSE is well and widely known to the traveling public. The location is especially suitable to merchants and business men; it is in close proximity to the business part of the city—is in the highway of Southern and Western travel—and adjacent to all the principle Railroad and Steamboat depots.

The STEVENS HOUSE has liberal accommodation for over 300 guests—it is well furnished and possesses every modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gas and water—the attendance is prompt and respectful—and the table is generously provided with every delicacy of the season—at moderate rates. The rooms having been refurnished and remodeled, we are enabled to offer extra facilities for the comfort and pleasure of our guests.

THE AIR WE BREATHE.

Boston has abandoned the old fashioned notion of relying on the moon for light on cloudy nights. It will burn gas all the year round, at the risk of running opposition to the moon occasionally. Its progressive ideas will cost it an additional expense of $30,000.

The new law in Connecticut against salesmen entering that State is enforced most vigorously. No manufacturer, merchant or corporation can send a clerk there without taking out a State license of a hundred dollars, and a separate one of from twenty-five to fifty dollars for each town or city visited.

The number of students in the Michigan University is larger than that of any similar institution in the country. There are five hundred in the law school alone.

Recently three dead bodies have been found in the fields near Plano, Ill., and all had the appearance of having been murdered.

The spots on the sun, which appeared in September, are said by Mr. Chacornac to indicate the position of a group of volcanoes.

Four hundred bushels of potatoes to the acre are said to be an average crop this season in Oxford, county, Maine. A starch mill in Andover has ground twenty-five thousand bushels of them into starch already, this year.

Several human bones in an advanced state of decay were discovered on Saturday by workmen who were making excavations at the intersection of Court street and First place. As Washington's army once encamped on or near this spot, it is supposed that these may be the remains of a Revolutionary patriot.

One of the porters at the Astor House has been smashing trunks in that hotel for thirty-one years.

The church in which General Washington was married to Martha Custis, in New Kent county, Virginia, is very much dilapidated, and its congregation too poor to repair it. Contributions are therefore solicited to aid in preserving this historical relic.

George Francis Train sent his wife on a ninety days' voyage from Australia to America, that an expected child might by being born in this country, become a possible future President of the United States. Mrs. Train was nearly shipwrecked on the passage, but she reached America in safety. The child for whom all this trouble was taken, was a girl.

Advantages are claimed for a new explosive material called haloxylin, on the ground that "it neither ignites by percussion nor friction." How is the explosion obtained?

They have a dog at the Peoria (Ill.) Post Office who stands guard at the ladies door, and won't let gentlemen enter.

A clergyman in Providence, Rhode Island, publicly requests to be "set free from the title of Doctor of Divinity; so free from it that I shall never be called Doctor when spoken to or of; that the initials D. D. shall never be written or printed with my name; and that I shall never be regarded as bound in courtesy to give the title in any way to any one having it."

A most extraordinary matrimonial arrangement has lately been consummated in Chicago. The three bridegrooms are brothers, and the happy brides are sisters, and it was literally the marriage of two entire families. It was an economical arrangement thus wooing and marrying at wholesale—a great saving in lights, fuel and the expenses of the wedding festivities was effected.

A Library of Universal Information.

THE NEW

AMERICAN CYCLOPÆDIA:

A Popular Dictionary of General Knowledge.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A HOST OF SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART AND LITERATURE.

In 16 large volumes, 8vo.

750 double-column pages in each volume

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fullness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives anything approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information. In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If a library for reference are at hand, they are consulted, and not only is the curiosity gratified, and stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia worth in itself for purposes of reference at least a thousand volumes, is within the reach of all—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

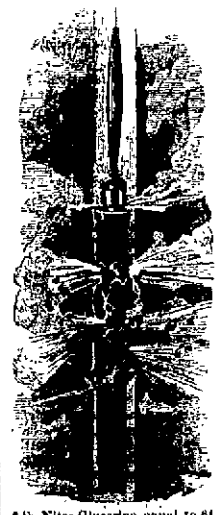
OFFICE AT THE RED PLANING MILL.



Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations, as regards the safety of handling, also the unprecedented force and power manifested by a skillful combination whereby the size of the Torpedo is lessened and the force many times multiplied and are now prepared to operate on wells with any of the above named explosives—either with our improved combination or our old Combination Torpedo, which has a record of utility too well known to need mention here.

8-lb. Nitro Glycerine, equal to 64 lbs. powder	$150
